Education

Full stack web development
Masai School, Bengaluru
10/2022 - Present

Master's in Environmental Science
Rashtrasant Tukdoji Maharaj
University, Nagpur
07/2019 - 08/2021

Technical Skills

React Express.js HTML5

CSS3 RESTful APIs

MongoDB JavaScript

Redux Django TypeScript

React Native

Prompt Engineering Chakra UI

Node.js Python

Soft Skills

Sakshi Mulekar

Full Stack Web Developer

Professional Summary

Proficient MERN stack developer with a passion for crafting dynamic web applications. Adept at both solo and collaborative project execution, showcasing adaptability and teamwork. Possesses a strong foundation in Generative AI and demonstrates agility in mastering new tech stacks swiftly.

Projects

Fitness Tracking [Live Demo Link](#) [Github Repo Link](#)

React Native, Django, MySQL

- Developed a fitness tracking application using React Native, Django, and MySQL
- Implemented user registration and authentication functionality to secure user accounts
- Created CRUD operations for exercise plans for users to manage their workout routines
- Utilized React Native for a cross-platform mobile application development

code converter app [Live Demo Link](#) [Github Repo Link](#)

React.js, Node.js, Express.js, OpenAI API, Chakra UI

- Powerful development tool for code conversion
- Seamless conversion between programming languages
- Debugging capabilities for error detection
- Multi-language support
- Real-time preview of converted code
- User-friendly and customizable interface

Certifications

Figma

Masai School, Bengaluru

Certification Link [🔗](#)

Zoom Marathon Certificate

Masai School, Bengaluru

Certification Link [🔗](#)

- Full-stack MERN (MongoDB, Express, React, Node.js) e-commerce application
- User authentication, product browsing, searching, filtering, cart management, wishlist
- Secure payment processing using Stripe
- Responsive design for seamless user experience
- Backend libraries like bcrypt, JWT, and OAuth

Doctor Appointment System

[Live Demo](#)

[Github Repo](#)

[Link](#)

[Link](#)

React, React Redux, Chakra UI.

- Built a small web application for booking appointments with doctors using JavaScript, React-Redux, HTML, CSS, and Chakra-UI.
- Implemented user authentication and authorization for secure access to the application.
- Developed search functionality to find doctors by name, specialty, or location.
- Designed and implemented appointment management features like canceling and rescheduling.
- Utilized ApexCharts library for data visualization of doctor availability.
